INTRODUCTORY.

In the publication of the Directory for 1896-'97, we offer no apology, firmly believing that a careful and unbiased examination must and will convince our subscribers that the work will speak for itself. In obtaining correct information in regard to Raleigh, we have spared neither labor nor expense, and have made a house-to-house canvass in gathering information; and though the labor has been both tedious and expensive, it has been greatly facilitated by the courtesy of our citizens, whose generous support and co-operation have enabled us to present so full and complete a publication.

In presenting to you this, our first effort at Directory-making, we desire to express our thanks for the assistance and information so cheerfully given, and at the same time claim a just appreciation of our own efforts to place before the public and into the hands of every merchant and professional man in Raleigh a Directory worthy of the Capital City of the grand old Commonwealth of North Carolina.

RALEIGH STATIONERY COMPANY.

CITY OF RALEIGH.

The beautiful "City of Oaks," capital of the Commonwealth of North Carolina, was laid out from a piece of land purchased from Colonel Joel Lane, by commissioners appointed by the General Assembly for that purpose, on the 4th day of April, 1792. It is situate upon the rise that begins to mark the lower from the upper portion of the State, upon easy undulations, only three hundred feet above the sea, surrounded by lands in high state of cultivation, with a most equable climate, and wital presents as many attractions for all that constitutes a desirable home as any city upon the Atlantic slope.

While lacking in some of the advantages alike of the sea-coast and the mountain, it possesses many not common to either. No disease has ever appeared here in its most virulent form, and its rate of mortality is far below the average. Together with Aiken, S. C., Raleigh was recommended by a commission of army surgeons as a proper and suitable point for the establishment of a Government sanitarium.

The population of Raleigh has always been one of remarkable culture, chivalrous but conservative and law-abiding; and though the centre of all political excitement, and enjoying the utmost freedom of discussion and expression of opinion, it is its proud boast that it has never had a riot. "A beautiful and appropriate monument erected by the new to one of the most illustrious political martyrs of the old world, and by North Carolina to the author of the first attempt at colonization within her borders," Raleigh has always maintained an enviable reputation as the home of brave action and refined culture.

From a village of some four or five thousand in 1865, Raleigh has steadily grown into a respectable city of about eighteen thousand, including the population upon its outskirts not strictly within its sharply-defined limits. Its city government is of the best, order strictly but mildly enforced; it has an efficient system of street

railway; a thorough and satisfactory water supply; a well-equipped fire department; is beautifully lighted by electricity; has its main thoroughfares paved; has a well-conducted telephone system; is adorned with a number of magnificent public buildings and private residences; its population is employed by many and varied industries; has churches of all the leading denominations; its public and private school facilities are most excellent; its debt is small and its credit is high. In a word, we have a city of which we speak with pride and to which we cordially invite the industrious and honest home-seeker.

Raleigh Police Census, 1896.

In the census recently taken by this department, the enumerators received and conscientiously followed instructions, putting the name of no one on their books who lived outside the corporate limits. This showed a population of 13,081. When we recall the fact that the corporate limits have not been extended since 1856, that a large number of our citizens who are essentially of the city have built up homes just outside, that the increase by reason of establishment of factories and manufacturing plants is all on the outside, amounting in round numbers to not less than 4,500, we can reasonably claim a population incident to and being a part of our city of not less than 17,500, showing a gratifying increase since the census taken in 1890. The following shows the result by wards and sex:

	WHITE.	COLORED.
First Ward,	2,255	749
Second Ward,	1,996	705
Third Ward,	1,776	2,238
Fourth Ward,	1,092	2,160
	7,119	5,962
BY SEX.		
	MALE.	FEMALE.
First Ward,	1,401	1,602
Second Ward,	1,233	1,468
Third Ward,	1,920	2,204
Fourth Ward,	1,494	1,758
	6,048	7,033
Total,		13,081
Excess of whites over colored,		1,157
Excess of females over males,		985

CITY HALL.

Fronting on Fayetteville street, running back to Wilmington street.

W. M. RUSS, Mayor; HAM. F. SMITH, City Clerk; W. B. HUTCHINGS, Tax Collector; J. N. HOLDING, City Attorney; CHAS. D. HEARTT, Chief of Police.

Street Directory.

The State Capitol is the meeting-point for the streets which divide the city on the North, South, East and West. Fayetteville and Halifax streets separate the city East and West, Fayetteville street running South and Halifax street running North. The other streets running North and South are in the following order:

EAST SIDE.

Wilmington,
Blount,
Person,
Bloodworth,
East,
Swain and Haywood.

WEST SIDE.

Salisbury,
McDowell and Manly,
Dawson,
Harrington,
West,
Saunders.

Newbern avenue and Hillsboro' street separate the city North and South. From the Capitol, Newbern avenue runs East and Hillsboro' street runs West. The other streets running East and West are as follows:

NORTH SIDE.

Edenton,
Jones,
Lane,
North and Oakwood ave.,
Johnson and Polk,
Peace,
Firwood ave.

SOUTH SIDE.

Morgan,
Hargett,
Martin,
Davie,
Cabarrus,
Lenoir,
South,
Smithfield and Cannon.

The buildings are numbered on the Philadelphia plan, 100 to a block, beginning at the State Capitol.

THE STATE CAPITOL, Union Square.

Solomon C. Weill, Assistant United States Attorney; residence Wilmington, N. C.

Owen J. Carroll, United States Marshal; office Raleigh, N. C.

N. J. Riddick, Clerk Circuit Court, Raleigh and Wilmington; residence Raleigh; offices at Raleigh and Wilmington.

Vitruvius Royster, Deputy Clerk, Raleigh, N. C.

W. H. Shaw, Deputy Clerk, Wilmington, N. C.

North Carolina Facts and Statistics.

Number of counties, 96.

State area, 52,286 square miles.

Extreme length is 503½ miles.

Extreme breadth is 187½ miles.

Number of electoral votes, 11.

Length of coast line is 314 miles.

Land surface, 48,666 square miles.

Water surface, 3,620 square miles.

Area Dismal Swamp, 150,000 acres.

Number of miles of railroad, 3,579.

Indian population (census 1890), 1,571.

Inland steamboat navigation, 900 miles.

The N. C. SUPREME COURT BUILDING, cor. Edenton and Salisbury sts.
Also containing the State Library and Bureau of Labor Statistics.

Total population (census 1890), 1,617,947.

Average mean annual rainfall, 52 inches.

White population (census 1890), 1,049,191.

Colored population (census 1890), 567,170.

Total water-power, 3,500,000 horse-power.

Western boundary—longitude $81^{\circ}, 42', 20''$.

Average winter temperature, 43° Fahrenheit.

The highest point is Mitchell's Peak, 6,888 feet.

Average area of counties is 507 square miles.

Number of varieties of minerals discovered, 180.

Average summer temperature, 75 degrees Fahrenheit.

Average elevation of State above sea level is 640 feet.

Average mean annual temperature, 59° Fahrenheit.

Area of largest county (Brunswick) is 950 square miles.

Number of towns with a population of over 2,000, 23.

Area of smallest county (New Hanover) is 80 square miles.

Highest towns—Boone, 3,250 feet; Highlands, 4,000 feet.

Legal rate of interest six per cent.; usury forfeits interest.

Deaths by consumption, 1.05 per 1,000 of State population.

Limit to State and County taxes, $66\frac{2}{3}$ cents. Limit to poll-tax, \$2.

Highest point of Smoky Mountain range is Clingman's Dome, 6,660 feet.

Mean annual summer temperature of Raleigh, 76 degrees; Florence, Italy, 75 degrees.

Mean annual temperature at Raleigh, 60 degrees; Florence, Italy, 59 degrees.

State, Congressional and Presidential elections, Tuesday after first Monday in November.

Mean annual winter temperature of Raleigh, 44 degrees; Florence, Italy, 44 degrees.

The highest point of Blue Ridge mountains in the State is Grandfather Mountain, 5,897 feet.

The average date of first killing frost is October 10th, and the last killing frost in spring is in April.

The largest drainage area of the State is that of the Cape Fear river, aggregating over 8,000 square miles.

Asheville is 2,250 feet above sea level. Mean annual temperature, 54.20° —summer, 71.70° ; winter, 38.02° .

Mean annual rainfall at Raleigh, 48 inches; Florence, Italy, 27 inches. Altitude above sea level of Raleigh, 365 feet.

Position of Raleigh—State capital—is latitude 35 degrees, 47 minutes; longitude, 78 degrees, 38 minutes, 5 seconds.

The death penalty is only inflicted for murder, arson, burglary and rape. The General Assembly have power to abolish it in all cases if deemed advisable.

Married women retain all their real and personal property, exempt from the debts of their husbands. Liens of mechanics and laborers, for their work, are required.

Legislature, biennial in odd-numbered years, meeting Wednesday after the first Monday in January. Limit of session 60 days. Terms of Senators and Representatives two years each. Pay, \$4 per day.

Homesteads are allowed to the amount of \$1,000 value, and personal property to the amount of \$500. The homestead is not only exempt during the life of owner, but after death during the minority of any of his children, and also during the widowhood of his wife.

Raleigh Water Supply.

The Raleigh Water-Works was constructed by the National Water-Works Construction Company, of Dayton, Ohio, in 1887, Mr. M. M. Moore, C. E., engineer in charge. The supply is taken from Walnut creek, two miles from the city. Water is pumped through the filters into the reservoir; from reservoir pumped to tower, on west Morgan street, holding 101,516 gallons. When installed there were two compound duplex steam-pumping engines, of one million gallons each, and two compound power pumps, of one million gallons each, connecting with turbine wheels. Power was obtained from the pond, covering about 60 acres. An order of court compelled the abatement of the pond in 1895. The Raleigh Water Company, with the indomitable push that has characterized all of their actions, accepted the situation and at once made arrangements to give the citizens of Raleigh the same ample fire protection.

This necessitated the purchase of a new pump and boiler. At great expense they purchased from Henry R. Worthington the first triple expansion compound-condenser engine ever shipped to this State, with a daily capacity of two million gallons, with the two Smith-Vaile one million gallons each. This gives to our citizens a pumping capacity of four million gallons per day.

At this time a new 100-horse-power boiler was purchased, of the latest type. There are 125 public fire-hydrants and twenty-five private fire hydrants, making 150, which gives ample fire protection.

Domestic pressure is from fifty to seventy-five pounds, according to the location; fire pressure, from seventy-five to 100 pounds.

The pipe is R. D. Wood & Company's, guaranteed to stand 300 pounds to the square inch; hydrants, Mathew's; valves, Eddy.

The Pump-House, Engineer's house, office and Superintendent's house are connected with the fire-alarm system.

Every citizen of the city is justly proud of the efficient service rendered, which is fully shown by the fact that no controversy has ever taken place between the city and the Raleigh Water Company.

The officers of the Company are Julius Lewis, President; A. A. Thompson, Vice-President; F. H. Briggs, Treasurer; A. M. McPheeters, Jr., Superintendent and Secretary; J. E. Underwood, Engineer.

Raleigh Fire-Alarm Telegraph System.

For a number of years Raleigh has been equipped with the fire-alarm telegraph, but the Gamewell Fire-Alarm Telegraph Company, of New York, have just completed the instalment of a storage-battery system, together with a switchboard, for the regulation of the same in the new fire department building. This storage battery is made by the well known Storage Battery Company, of Philadelphia, for the special purpose of telegraph.

Raleigh is the first city in America to put in a new complete storage-battery system in connection with the fire-alarm department. It is in keeping with the progress and advancement in her fire department that this should be the case. The system has just been completed by the inventors, and it is known to be far in advance of the old system employed. The new system alone saves 80 per cent. in the cost of maintaining batteries for the fire-alarm system, and in three years it is calculated that it will pay for itself.

It is a matter of pride to every citizen that we have such an excellent fire department, and with the addition of the new storage-battery system the department is more fully equipped to fight the flames.

All the fire-alarm wires that radiate over the city lead directly to the new building on Morgan street, where the battery system is located.

The switchboard is made of slate, and is arranged with a lamp rheostat, an automatic cut-out, a polarized relay or switch, an ammeter and voltmeter, and a switch for the changing from one set of batteries to the other with just one move.

It is stated that on a fire-alarm circuit or line the batteries duplicate, so that while one set is being charged the others are discharging on to the lines.

The object of the lamp rheostat is to govern the rate of discharging the batteries. The automatic cut-out is used in case the charging current stops at any time. The switch falls and prevents a back charge of the batteries, and when the power returns the switch is again drawn up into its place and the batteries again charged. The polarized switch is used in case the poles of the charging currents are reversed; in this case it would ring a bell and so notify the operator of the change of poles. The ammeter and voltmeter are cut in by the use of plug, and in this way we are enabled to read at what rate and at what voltage we are discharging or charging, as the case may be.

If we should insert a plug in discharging the circuit and find we are discharging too rapidly, we could, by the moving of a switch, throw in more resistance into the line and thereby reduce the current until it reaches the proper rate of discharge. In case the discharge is not high enough, the operation is reversed.

Number and Location of Fire-Alarm Boxes.

TO GIVE AN ALARM.

Break the glass front to key-box, unlock the fire-box, pull lever down once, and let go. You cannot release the key from the lock

If the small bell in the box is ringing, do not pull the hook, as this indicates that an alarm has already been sent in from another box. Key to all boxes will be in lock

Be particular to remain at the box until some officer of the fire department or some piece of apparatus arrives

Always send in the alarm from the box nearest the fire

SIGNALS.

One blow—Test of Line. Any policeman or other officer of the city, on hearing this signal, is instructed to report it at once to the Superintendent of Fire Alarm

Two blows, repeated two (2) times—Call for Direct Pressure

Two blows, repeated three (3) times—Call for Increased Pressure

Three blows—Fire Under Control

Four blows—Direct Pressure on

Ten blows—Call for Police

Schools and Academies.

Raleigh is well equipped in schools, and her citizens point with pride to the advantages here offered. Under the careful and effi-

cient management of Professor L D Howell, Superintendent of the Raleigh graded schools, the public-school system in Raleigh compares very favorably with any city in the South. The private schools are a source of gratification to the citizens of Raleigh. The following is a list of the schools and their location:

Our Old vs. other Co.'s New.

The Union Central Life Insurance Co. is the largest financial institution in next to the richest State in the U. S., and for many years has written the most liberal Policy contracts of any Company, giving the longest possible extension clause, largest possible paid-up value, and have kept the full legal value (as per the highest standard of valuation of any State) at the command of the insured in cash on his Policy, which he may still keep in force at the smallest possible cost.

PERFECT POLICY. FIRST EVER ISSUED LIKE IT.

Southern Railway,

The Greatest Southern System,

Penetrating

the States of Georgia, Alabama, Mississippi, Virginia, North Carolina, South Carolina, Kentucky and Tennessee.

Operating

the famous WASHINGTON AND SOUTHWESTERN LIMITED, composed of Pullman Drawing-Room Sleeping Cars, elegant Day Coaches and Southern Railway Dining-Cars, between New York, Philadelphia, Baltimore, Washington and Atlanta, Birmingham, Memphis, Montgomery, New Orleans, Asheville and Hot Springs (N. C.), Savannah, Jacksonville and Tampa.

Also United States Fast Mail between the principal centres of the East and all points in the South, Southeast and Southwest.

Selected by the Government for the prompt execution of the mails.

For time-tables, schedules, complete travel advice, tickets, baggage checks, etc., apply to your nearest Agent.

Peace Institute, Raleigh, N. C.

A Select School for Girls,

Complete in all its Appointments,

Thorough in Scholarship.

Principal, a M. A. of University of Virginia, with able Assistants under him.

Three Literary Courses, leading to the Degrees of B. L., B. S. and B. A.

Art Department

is unsurpassed, and is in charge of an experienced Specialist, with one Assistant.

Music.

There are two courses, leading to the Degrees Fellow of Music (F. Mus.) and Bachelor of Music (B. Music). The Music Faculty contains five (5) able and experienced teachers.

Health

of our location proverbially good, and especial attention is paid to Hygiene and Physical Culture.

Terms

very moderate for advantages offered.

Fare

good and plenty of it.

For Catalogue and full information, address

JAS. DINWIDDIE,
Principal.

Read

THE PRESS-VISITOR

Every Day for all the News.

RALEIGH'S LEADING DAILY.

Has triple the circulation in the City of any
Daily Paper ever Published in Raleigh.

Publishes full Associated Press dispatches every day, giving all the news of the world up to the hour of going to press; also full Market Reports, giving the New York and Liverpool Cotton quotations, New York Stocks, Chicago Grain and Provisions, and daily Commercial and Financial Gossip from all trade centres.

The local news of Raleigh is published more fully in THE PRESS-VISITOR than in any other Raleigh paper.

The Best Advertising Medium.

THE PRESS-VISITOR goes to every family in Raleigh, and is read every day by the entire population of this city. Your advertisement in THE PRESS-VISITOR is read by every man, woman and child in Raleigh.

CIRCULATION INCREASING DAILY.

Subscription Price: \$3.00 per year; 25 cents per month.

**SHAW UNIVERSITY,
RALEIGH, N. C.**

Established at Raleigh, N. C., December 1, 1865, was a pioneer in the education of colored young men and young women. Its Young Ladies' Department, formerly known as Estey Seminary, was the first of its kind ever established.

ALL DEPARTMENTS

have grown better with age, and parents can feel that SHAW is a safe place for their sons and daughters. While a high degree of scholarship is maintained by her students, solid character is insisted upon, and all unwilling to comply with rules and regulations necessary to this end will not find here a congenial atmosphere.

There are Departments of

**LAW, MEDICINE, PHARMACY, MUSIC,
MISSIONARY TRAINING and THEOLOGY,**

**AS WELL AS NORMAL, SCIENTIFIC and
COLLEGE COURSES OF STUDY.**

A corps of thirty-two Professors, Teachers and Employés is in charge of the various Departments. Excellent opportunities for acquiring a solid education at a trifling cost are presented.

For Catalogues and other information, address **THE PRESIDENT,**
